

## INSTRUCTIONS

- This is the special image target
- Print this page from a computer connected to a printer (color or b/w)

- Point the rear camera of your device at the above printed image target to activate the HeartCam
- Touch the buttons at the bottom of the App for additional viewing modes

## MORE INFO

- HeartCam works best in good light with a flat image target
- Some devices may require a restart to free memory. Do this by holding down top power button
